

Centre for Mathematical Imaging and Vision

CMIV Data Mining Workshop at IRACE

29 October 2014 (Wednesday)

Time : 10:30 - 15:30

Venue : 9/F Meeting Room, Shenzhen Virtual University Park Industrialization Complex, No. 2 Yuexing 3rd Road, South Zone, Hi-tech Industrial Park, Nanshan District, Shenzhen

Program:

- 10:30-11:00 ***Mark Junjie Li, Shenzhen University***
Application of Wavelet-based Clustering Approach to Load profiling on AMI
- 11:00-11:30 ***Aijun Zhang, Hong Kong Baptist University***
Scoring models for online testing and assessment
- 11:30 – 12:00 ***Qiang Jiang, Shanghai Jiaotong University***
Stochastic Block Model for Signed Network Analysis
- Lunch
- 14:00-14:30 ***Xiaojun Chen, Shenzhen University***
New Developments of Feature Grouping Weighting Methods for Clustering of High Dimensional Data
- 14:30-15:00 ***Henry Ngan, Hong Kong Baptist University***
Comparison of Various Outlier Detection Methods in Traffic Data
- 15:00-15:30 ***Michael Ng, Hong Kong Baptist University***
Tensor data computation -- MultiRank and HAR

- All interested are welcome -
