Mathematics PhD alumnus wins Applied Numerical Algebra Prize at Numerical Algebra and Scientific Computing Conference

數學博士畢業生獲數值代數與科學計算國際會議頒「應用數值代數獎」

Dr. Zhang wins Applied Numerical Algebra Prize at Numerical Algebra and Scientific Computing Conference
數學博士獲數值代數與科學計算國際會議頒「應用數值代數獎」

Dr. Zhang Leihong (Mathematics PhD, 2008 graduate) was awarded the Applied Numerical Algebra Prize for his outstanding academic paper at the Fourth International Conference on Numerical Algebra and Scientific Computing (NASC 2012) held last week.

It is the first time that Dr. Zhang participated in the Conference. Expressing his surprise on winning the prize, Dr. Zhang said, "The scholars of numerical linear algebra are warm and friendly. I would like to thank Professor Liao Lizhi and Professor Michael Ng from HKBU's Department of Mathematics for their supervision and guidance during my PhD studies at the University. Furthermore, I benefited from HKBU's overseas attachment programme since part of my research work was done during my visit to North Carolina State University in 2008."

The Applied Numerical Algebra Prize, granted by the Chinese Computational Mathematical Society, is awarded to at most two of the best academic papers written by Chinese scientists aged under 35, who obtained a Master or Doctoral degree within five years. Reviewing all the entries, the scientific committee shortlisted two candidates and eventually one to two final winners based on the candidates' presentations of the research work at the Conference. Dr. Zhang and Dr. Bo Dong from Dalian University of Technology were the two final winners this year.

Dr. Zhang is currently an Associate Professor at the Department of Applied Mathematics at Shanghai University of Finance and Economics.

張雷洪博士（二零零八年數學系博士畢業）憑出色的研究論文，在上周舉行的「第四屆數值代數與科學計算國際會議」中，獲頒「應用數值代數獎」，以表揚他在數值代數和科學計算領域的貢獻。

第一次參加「數值代數與科學計算國際會議」的張博士對獲獎感到意外，他說：「數值代數這個學術圈的學者都很熱情、友善。我特別感謝浸大數學系廖立志教授和吳國寶教授的指導，讓我在數值代數和科學計算這個範疇作出貢獻。我亦感謝浸大的『海外暫讀計劃』，我就是在二零零八年訪問美國北卡羅來納州立大學期間取得部分研究成果的。」

獎項由中國計算數學學會頒發，每屆嘉許最多兩名三十五歲以下、在五年內取得博士或碩士學位的優秀內地青年學者或研究生。遞交的論文經過評審後，評委會選出兩名候選人，再由候選人在會議上公開演說，最後選出一至兩名得獎者。今年，張博士和大連理工大學董波博士獲頒獎項。

張博士現為上海財經大學應用數學系副教授。
