## Quantum Codes and a Construction

Chaoping Xing

National University of Singapore, Singapore ([matxcp@nus.edu.sg](mailto:matxcp@nus.edu.sg))

**Summary.** Quantum information has received much attention in the recent years. Since the establishment of the mathematical model for quantum coding, people have been looking for constructions of good quantum codes. In the talk, we present a new description on quantum codes and a new construction based on this description.
